

**PETROSERV**  
LIMITED

**Oil & Gas Business Unit**

## Petroserv Limited

Petroserv Oil & Gas Division is an EPIC Contractor and a market leader in engineering, procurement, fabrication, installation and construction services. The range covers mechanical, piping, electrical, instrumentation, civil and fabricated engineered structures / packages.

Specialized departments within the Division provide experienced projects management and construction support. Commissioning teams are mobilized for capital projects, turnarounds, shutdowns and plant maintenance.

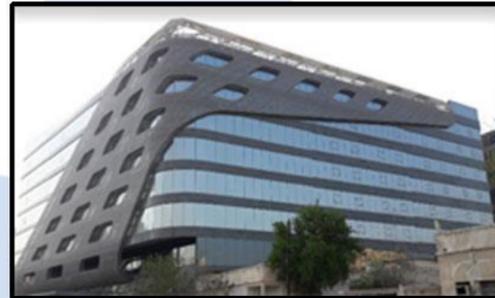

Above services are supported by an extensive fleet of company owned Plant-Motor-Vehicles.

The Oil & Gas Division of Petroserv is proficient in delivering a diverse multi-disciplinary EPIC projects.

Petroserv, a wholly owned Qatari company, is one of the leading EPIC contractors in the State of Qatar. Existing since 1978, Petroserv has an enviable, proven track record with a large variety of Qatari and international clients; including: Ashghal (Public Works Authority), Kahramaa (Qatar General Electricity and waters Corporation), Qatar Petroleum (QP), Private Engineering Office (PEO), Qatar Steel, Qatar Gas, Qatar Armed Forces, Siemens Vai Pomini, FCB and CCIC and Hyundai.

### Message from the Managing Director's office:

*"Construction is a business where success is measured by the ability to complete projects on time and within budgets. At Petroserv Limited, our projects execution is based on specific set of behaviors and techniques that were mastered over the years resulting in a competitive market advantage and edge. Established in 1978, Petroserv limited is one of the leading EPIC Contractors in Qatar with activities that include but not limited to Oil & Gas as well as Civil Infrastructure. We execute projects in petrochemical, Oil & Gas facilities, shutdowns, buildings, commercial, infrastructure and water / sewage treatment.*

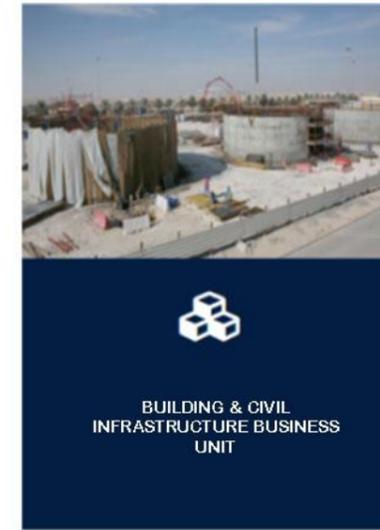

*At Petroserv, our success is strongly attributed to the quality of services we provide and the level of client satisfaction being achieved. Our prime purpose is supplying, delivering, and managing projects with ensuring quality and timely completion, whilst having zero harm to everyone, public assets and the environment.*

*We look forward to the future prospects of what the industry holds as we are geared up to the challenges ahead. We see our goalposts in the horizon and we are heading towards them."*

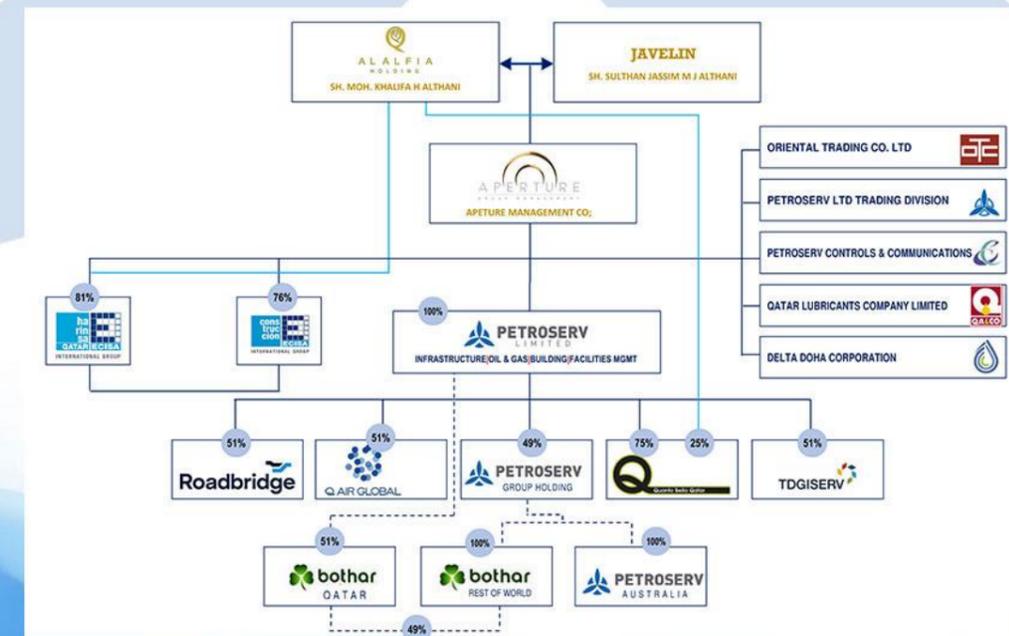

## The Company

Petroserv is an ISO 9001: 2015, ISO 14001: 2015 and OHSAS 18001: 2007 Certified Company that offers a diverse range of engineering and construction services in its three main areas of activity, namely Infrastructure, Oil and Gas and Building.

## The Group

Being part of Aperture Management Group, Petroserv is operating four strategic alliances with "Road-Bridge", "Q Air Global", "Quanto Bello" and "TDGIServ",

## EPIC Capabilities

PETROSERV carries out Engineering, Procurement, Fabrication, Installation, Construction and Commissioning (EPIC) contracts within the Oil & Gas sector of the state of Qatar specializing in projects.

PETROSERV successfully competes EPIC contracts for clients such as Qatar Petroleum, QCHEM, RLOC, QAFAC, QAPCO, WOQOD, Qatar Steel, Qatar Gas, RASGAS, QVC, QALCO, QAFCO, QATALUM, CCC, SAIPEM, SIEMENS, HYUNDAI Engineering & Construction Co.

PETROSERV is experienced in mobilization of personnel, plant and equipment required for all Oil and Gas, refinery and pet-rochemical plants and shutdown activities.

PETROSERV owns a fully equipped fabrication shop with highly skilled labours and intellectual Property and equipped with a company owned diverse fleet of Plant-Motors-Vehicles.

## Fabrication Capabilities

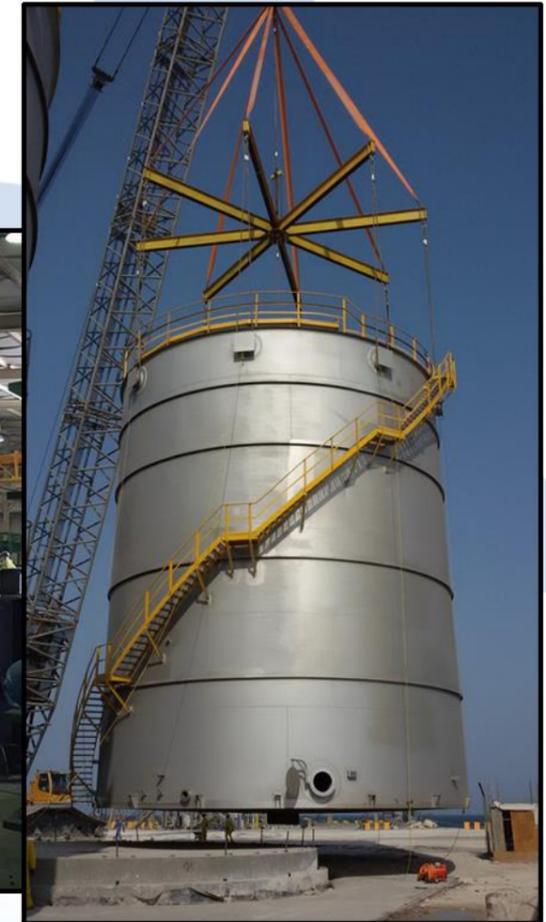

PETROSERV has expertise in mobilization of personnel, plant and equipment required for all Oil and Gas, fabrication requirements.

### With a diverse range of production for various steel grades :

- Pipe spools (small bore and large diameter piping)
- Light / heavy steel structures (walkways, platforms, shade, warehouses etc....)
- Pipe racks
- Storage tanks
- Heavy steel ducts/stacks
- Engineered skids
- Pressure vessels (ISO 9001:2015 ASME "U", "R", "S", "PP" & "NB")

### The workshop has :

- Skilled / certified welders, fabricators, fitters and supervisory staff.
- A total of 2,556 m<sup>2</sup> covered area serviced by overhead cranes.
- 1435 m<sup>2</sup> open area for assembling of heavy / big items and hydro testing.
- Plate cutting, rolling machines, shearing machine, CNC machines, Tig and Mig welding machine and
- SAW machines for heavy walled plates.
- Controlled painting facility.
- In-house Engineering capabilities executing turnkey jobs.
- On the approved list of all Qatar oil & gas clients.

## Shutdown Capabilities

At Petroserv, meticulous attention is paid to the scheduling and logistical side of all undertaken shutdowns. Petroserv executed shutdowns in various stations in Dukhan Fields and Mesaieed Area for clients such as Qatar Petroleum, QAFCO, Qatar Steel Company and RasGas.

### Our Shutdown services include:

- Catalyst Loading and unloading
- Heat Exchanger Refurbishment
- Test-Separator Maintenance
- Rotary Equipment Inspection/Testing
- Vessel Cleaning
- Pressure Hydro Testing
- Re-installation including Instrument Dismantling
- Calibration
- Pumps Maintenance and Seal Replacement
- Repair of Concrete Foundations
- Demolition of Redundant Foundations
- Pipe Supports Modifications

## Leak Detection and Repair services (LDAR)

Petroserv in collaboration with its partner from South Africa M/s Enserve offers a comprehensive environmental management service that includes a fugitive emission monitoring and control program, designed specifically to monitor, control and reduce volatile organic compound (VOC) emissions.

Such emissions emanate from a variety of sources, including valves and pumps at refineries, chemical plants and pipeline transfer stations.

### Our program includes:

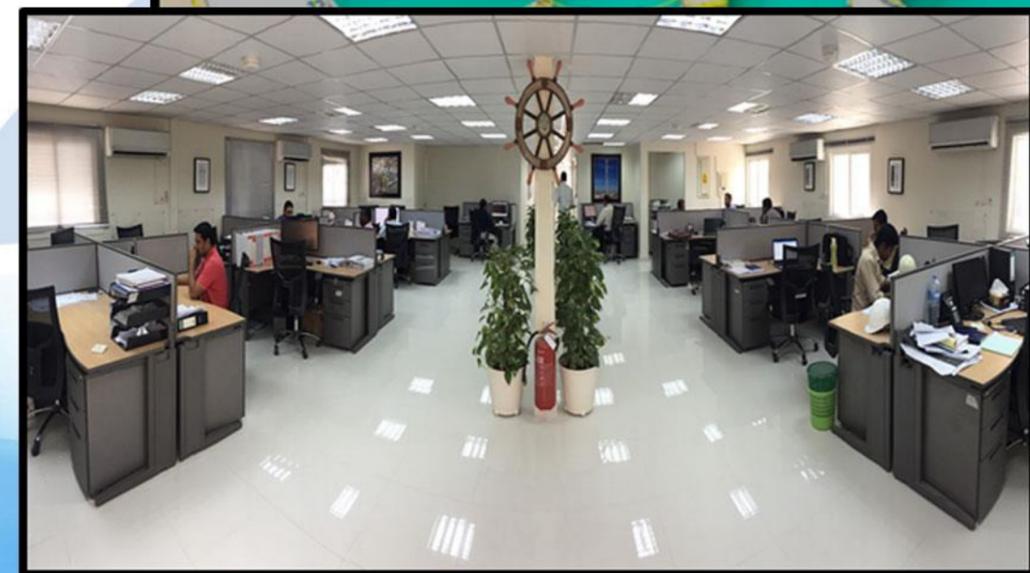

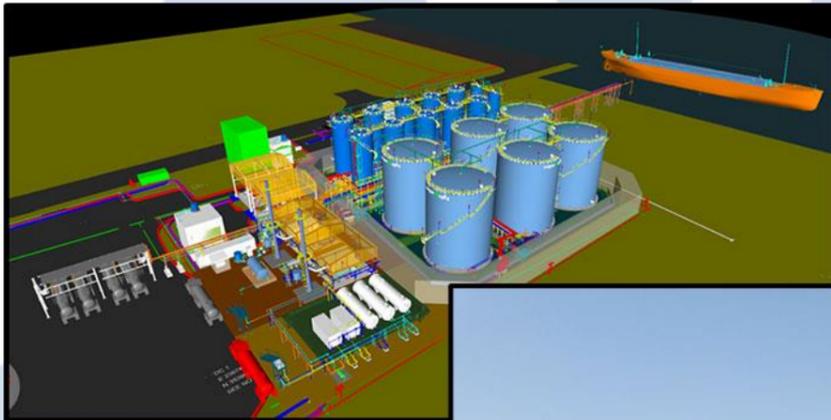

- Valve identification and tagging
- Physical measurement of emissions
- Recording of emission data
- On-site installation of low emission packing and gasketing
- In-line gland adjustment and repacking
- Continuous monitoring and auditing of sites to ensure legal compliance

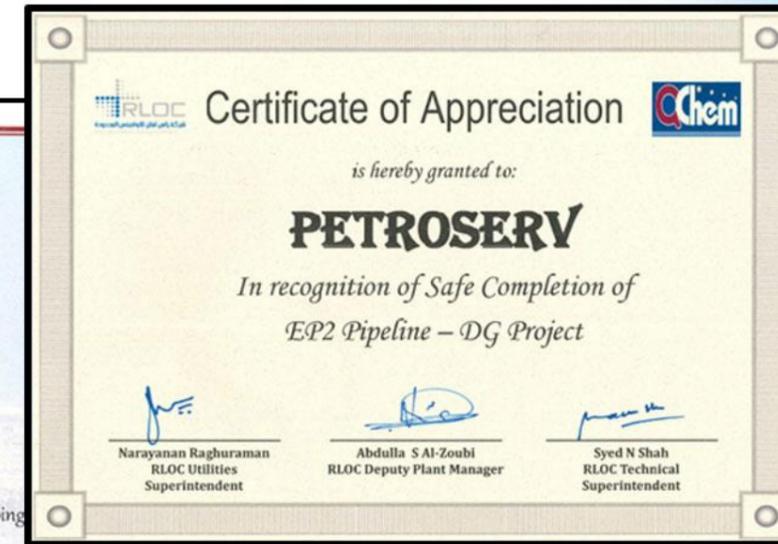

## Engineering Capabilities

Petroserv Oil & Gas Business Unit is endowed with innate capabilities of a pool of engineers delivering the following services:

- Management of Engineering Sub-contractors for major EPIC contracts.
- In-house Engineering for detailing & shop drawings.
- Engineering for procurement (MPRs, Technical Evaluations, Etc.)
- Calculation & simulation using software (CAESAR II, STAAD.Pro Compress and AutoCAD)

Awards and Trophies

## Plant, Motors, Vehicles

Petroserv Oil & Gas Business Unit is an EPIC Contractor and a market leader in engineering, procurement, fabrication, installation and construction services. The range covers mechanical, piping, electrical, instrumentation, civil and fabricated engineered structures / packages.

Specialized departments within the Division provide experienced projects management and construction support. Commissioning teams available for capital projects, turnarounds, shutdowns and plant maintenance.

Above services are supported by an extensive fleet of company owned Plant-Motor-Vehicles. The Oil & Gas Business Unit of PETROSERV is proficient in delivering a diverse multi-disciplinary EPIC projects in Qatar.

### Lifting Equipment

- Rough terrain cranes
- All terrain cranes
- Hydra cranes

### Heavy transport equipment

- Flat bed trailers
- Low bed trailers
- Mobile workshop trucks
- Transit mixer trucks
- Head trucks
- Boom•Mounted Crane trucks
- Water tankers

### Light transportation

- Buses
- Cars
- Pickups

### Construction auxiliary equipment

- Air compressors
- Compactors
- Power generators
- Dewatering Pumps
- Electrical submersible Pumps
- Concrete Vibrators
- Asphalt/Concrete Cutters
- Mobile light Towers
- Manual mixer machines
- Water service trolleys

### Earth moving equipment

- Wheel excavators
- Crawler excavators
- Rotary Cutter Excavator
- Bucket excavators
- Breakers
- Back hole loader
- Front end loader
- Skid Steer loader
- Boom trencher (7 meters depth)
- Water tankers

## Safety, Health and Quality

Petroserv is committed to the responsibilities in respect of safety, health and quality, which are an integral part of the way we conduct ourselves. To ensure that these elements are part of the way that we do business, we at Petroserv develop, implement and maintain systems for safety, health and work quality that are consistent with internationally recognised standards which enable us to achieve the following:

### Health

Recognise that all employees have a vital role to play in the achievement of the company goals and objectives. Realise that all employees want to be a vital part of a successful team. Create a business environment within PETROSERV that allows all employees to become productive team members as quickly as possible. Allow all employees to realise their true potential without compromising the objectives of PETROSERV or marginalising minorities.

### Safety

- Entrench safety as a value for our people which not to be compromised
- Identify, assess and manage risks to employees, contractors, service providers and other stakeholders
- Strive to achieve industry best practice
- Comply with legislation and where appropriate, exceed applicable legal and other requirements

## Safety, Health And Quality

### Quality

PETROSERV has adopted the international ISO 9001 standard quality system model for quality assurance in design, development, production, installation and servicing as its standard for quality assurance. PETROSERV is committed to the delivery of quality products and services in full compliance with its contractual requirements.

PETROSERV is committed to continuous improvements of its products, processes, systems and service; this to ensure "Right First Time" delivery. PETROSERV urges all employees to participate in achieving its stated objectives, as the effective implementation of a quality management system is the responsibility of all employees.

### Responsibility and Accountability

While we hold our leaders accountable for the safety of our people and expect our managers and supervisors to provide effective leadership in safety, health and quality, we expect all individuals to be responsible for their own safety and the safety of others. Management of every division is responsible for the full implementation of safety, health and quality management systems. This requires the allocation of appropriate resources and the provision of training, education, consultation, audits and monitoring to ensure compliance.
